# *We love children <3*

WELCOME TO EXPLORE OUR TIMELESS SCANDINAVIAN BATHING AND BEDDING COLLECTIONS FOR THE CHILDREN

All our children's products are designed with pure love and based on our own experience as mothers of two. The quality and safety matters the most, but we also want to pamper the little family members with luxurious softness and gentle touch. Also, an important part of children's everyday indulgence is to have some fun and play around. They just love to bath and we want to make that good feeling last for long.

Whether a towel or duvet cover, the children surely deserve only the best. Don't you agree?

# Fall in love with our natural harmonic colour palette for all the boys and girls.

One of our core elements is a Scandinavian harmonic color scheme which we think is one of the basic elements for relaxation. We will never launch a collection with pink or blue designs.

We will focus on timeless harmonic designs for all the homes and family members..
